Böckmann AH4320/35 Car

Attention all professionals: The successful vehicle transporter concept was developed further and improved. As a result the loading platform length of 4300 mm means that you can also comfortably and reliably transport vehicles with a long wheelbase. And this in the twinkling of an eye: With the original Böckmann quick-loading system. Combined with the excellent safety lifting system and a very low loading angle of only 10 degrees you have an excellent professional solution to hand which you will appreciate every day - and all this with an unsurpassed cost-benefit ratio. A vehicle transporter that will continue to set standards in the future.
