2600kg Mini Excavator trailer for machines up to 2100kg Model 26MD is a trailer designed to transport a Mini Excavator up to 2100kg, or a 1.5 ton excavator with extra buckets and equipment. It is fabricated with a heavy duty hot dipped galvanised steel chassis with integral welded steel treadplate mudguards suitable for standing on. Extended draw bar and high bucket carrier allows the digger boom to have a good clearance from back of vehicles
